Urgent help in a crisis

NHS

If you need help during a mental health crisis or emergency, the NHS mental health helplines are there for 24/7 advice and support. Click [here](#) to find your local NHS urgent mental health helpline.

If someone's life is at risk or they cannot be kept safe, [call 999 or go to A&E.](#)

Talking therapies, or psychological therapies, are effective and confidential treatments delivered by fully trained and accredited NHS practitioners. They can help with common mental health problems like stress, anxiety and depression. You can access talking therapies on the NHS via online, telephone and face-to-face platforms. A GP can refer you, or you can refer yourself directly. To refer yourself you must be 18+ and registered with a GP. Talking therapies are delivered in confidence, therefore your GP will not be contacted without your permission, unless it is believed you are at risk of hurting yourself or others.

How to refer yourself for NHS talking therapies:

- 1.** Visit the NHS talking therapies [website](#).
- 2.** Click 'Find an NHS psychological therapies service', then 'Start now'.
- 3.** You will be asked to enter the name of your GP surgery so that they can recommend local services that are available to you.
- 4.** Choose which service you would like to refer yourself to (typically based on preferred location).
- 5.** Complete the self-referral form as instructed.
- 6.** Someone from the service will then get in touch, usually within a few weeks. This is to ask you for more details about the problems you are having and to decide next steps.
- 7.** If the service thinks they can help you, they will recommend a therapy for you based on your symptoms and how severe they are.
- 8.** Waiting times for the first session vary, but you will be told what to expect during your call with the service provider.

For more information on accessing local mental health services, click [here](#).

Mental Health Charities

Whether you are concerned about yourself or a loved one, there are many mental health charities, organisations and support groups that can offer expert advice. We have highlighted some key charities below, but for a full A-Z list of mental health charities that offer support, please click [here](#).
