

# How to View Colleague Usernames

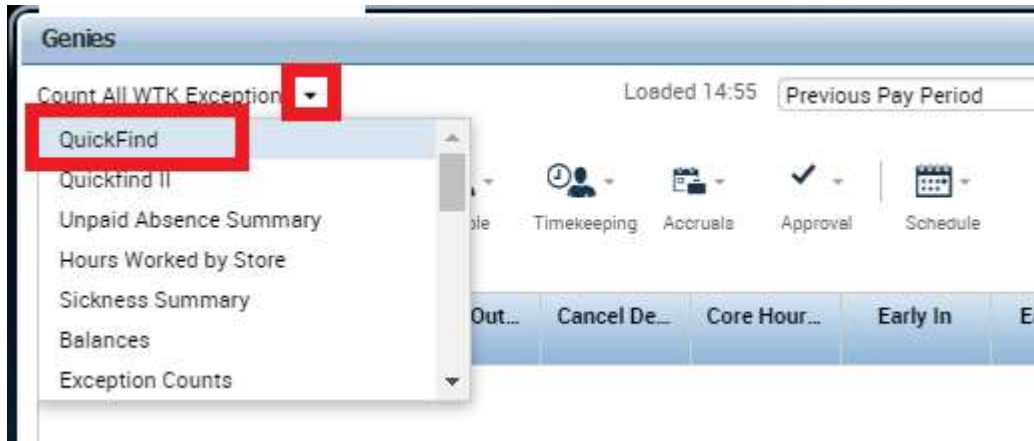

Select the Genies Widget from the related Items pane on the right of your screen.

*N.B You may need to use the scroll bar on the side to find the Genies option.*

Genies will open in a new tab> Click small arrow next to **Count all WTK Exceptions**> Select QuickFind

A search box will appear at the top. To bring back all colleagues input \* > Click 

To search for a specific colleague type their **surname**\* > Click 

Navigate to the **Username** Column to see the username for those you have searched for.

Store	Name	ID	User Name	Clocked In	Reports To
10812					
10814					
10852					
E0906					

If the colleague does not know their password or has locked their account, this can be reset via FastPass.

*N.B Please refer to the FastPass userguide if you are unsure how to use the system, which is available on Colleague Connect*
